### Is there a big difference between boys and girls at school ?

New research says there is .

When British girls between the ages of five and eleven go to (primary /secondary /nursery)school ,they often do better at school than boys .But now older girls are doing better at (primary /secondary /nursery )schools ,too .

Many people (think /thank /thought )that boys get better grades in science and mathematics and girls do well in languages and art .However ,more and more women apply for courses in mathematics and economics at university .

Every year , tens of thousands of British teenagers sit for their 'A' or Advanced level exams .You people need to (succeed /pass /fail)these exams if they want to go to university .(But /Although /until ) in 2008, more boys than girls failed their 'A' levels .Too many young boys (leave /are leaving /left )school without (get /got / getting ) qualifications .They then do careers in badly (pay /paid /paying )jobs .
