I. READING COMPREHENSION :

Read the text, and then answer the questions.

- ① My name is Patricia and my work consisted of being a manager assistant in a construction site. I was hired to maintain the project which is a residential building overlooking Central Park, New York City.
- ② However, being one female out of a total of about 10 women in a site with hundreds of men was not easy. The first day at work, I arrived with two young men and another female. A manager came, looked at all of us and immediately stated "I'll take the two boys". Then, feeling a need to apologize, he added "sorry ladies, I don't deal with women on this job".
- ③ The manager gave the other female and myself tasks that required too little effort and intelligence. While the two male were given major tasks relating to mechanical equipment and electrical work, we were asked to check if the finished apartments were painted and the marble was installed in the bathrooms. To get more interesting work, we decided to ask for help from Milly, the only female construction manager on the site. **She** said, "you'll probably be the only women on any site, better get used to it!"
